

Sting

by Jude Watson

Sting was written by the same author who has written five books of the *39 Clues* series, which I loved. It is also the 2nd book of a series after *Loot*, which I have yet to read. However, this didn't stop me understanding and enjoying *Sting*.

In short, *Sting* is the story of March (a 15 year old boy) and his gang trying to steal 3 Star Sapphires for Hamish, the mission boss, since they lost all their wealth. If they don't succeed a curse will be put upon them.

I thoroughly enjoyed 'Sting' as it had me on the edge of my seat, especially when March and his gang were getting away from The Top Cat Gang.

It was also very funny in parts like when March outsmarted this professional international gang of thieves as he was stealing one of the Star Sapphires.

I recommend this book for 10+ years and give it 5 stars.
