

**F**elix and his friends love to play. Their imaginations take them to amazing worlds . . . places full of magic, adventure and wonders from their wildest dreams. At lunchtime, all these worlds come to life!

Felix loves when all his friends play together, but he often wonders what magical worlds everyone plays in when they are alone.

Mum says that all he can do is ask, and they might invite him to play along! At first Felix feels unsure, but together they hatch a plan for Mission Friendship!

The next day at the ring of the lunch bell, Felix jumps out of class, ready to put their plan into action.

First, he spots **Dash** running on the playground. Their legs are powerful blades that blast them forwards. Felix asks Dash what it feels like.

'It's like I'm flying!' Dash says, 'My new legs help me run as fast as a cheetah! Follow me!'

At the end of the day, Felix thinks about the adventures he had with his friends. He ran a race with **Dash**, explored **Tanya's** Super-Secret Clubhouse, played basketball with **Wesley**, went on magical adventures with **Ethan**, learnt signs with **Lauren**, and watched bugs and butterflies with **Nellie**.

Felix got to play so many fun games and learn so much about his friends. **Mum** was right, all he had to do was ask.

**Mission Friendship was a success!**
