August 1944. The war is finally turning against Hitler, but he has one last secret weapon: flying bombs, sent to destroy the City of London. But Christopher only cares about solving the riddle of the phoenix ring. He journeys back to its source: early Roman Londinium, now surrounded on all sides by the armies of the British queen, Boudica. With help from a slave girl, Fortunata, Christopher learns the secrets of the ancient Roman fire-watchers, the Vigiles: but unknown to him, a sinister figure from 1666 has followed him through time. But in Paris, the fires of change are burning, and it's only a matter of time before the rebellion arrives on their doorstep. With the fate of her country, her love, and her life at stake, Belle must decide if she is ready to embrace her own strength—and the magic that ties her to so many female rulers before her—to become the queen she is meant to be.
