Mischief and her side-cat Mayhem are your respectably heinous villains. But before Mischief and Mayhem were ever supervillains, they were just Missy and Gizmo, fresh recruits at superhero boot camp. Except Missy lied on her hero application and has exactly zero superpowers, just her brainpower. Humiliated when caught and kicked out, she has only one fellow camp recruit who is willing to stand by her—Melvira. Unbeknownst to others, Melvira has her own villainous agenda, and it involves helping Missy cross the line into villainy as a new alter ego, Mischief. Something about Melvira doesn't sit right with Missy, and soon she'll be called upon to battle her former best friend...but will Missy be able to face the friend who was once her defender?

Shinji Takahashi is just an ordinary kid. An ordinary, home-schooled, smart-alecky, orphan kid being raised by his globe-trotting aunt, Yui. But when a magical guardian decides to use him as a conduit to awaken its power, Shinji's life takes a turn for the anything-but-ordinary. Captured by the menacing Hightower Corporation, which is bent on using the guardian's magic for its own nefarious purposes, Shinji must team up with a brilliant young tech whiz named Lucy and her robot mouse, Tinker, in order to escape. Together, they turn to the venerable Society of Explorers and Adventurers and its ragtag cast of spelunkers, hackers, mapmakers, pilots and mythology experts (among other things) to return the guardian to its rightful home and release Shinji from its magic, which seems to be draining his life force. Time is ticking, the Hightower Corporation is hot on their tail, and success or failure might depend on one small thing—Shinji finally coming around to the belief that he is anything but ordinary.
